Chapter 256: The Expansion of Divine Authority

The Twelve Divine Beings, having solidified their dominion over the multiverse through strength and justice, now sought to expand their influence further by creating an intricate system of governance. This system not only enforced their absolute authority but also brought order, fairness, and unity to countless realms.

Creation of the Divine Governance System

To ensure that all beings, civilizations, and dimensions adhered to the principles of divine law, the Twelve Divine Beings established various organizations and institutions. These entities collectively managed every aspect of governance, justice, and societal order across the multiverse.

1. Divine Organizations for Justice and Enforcement:

Divine Court:

The highest court in the multiverse, presided over by avatars of the Twelve Divine Beings.

Responsible for handling cases involving interdimensional disputes, war crimes, and violations of universal law.

Divine Judiciary:

A network of regional courts spread across dimensions, led by judges chosen by the Twelve Divine Beings.

Handled local disputes, minor crimes, and governance issues.

Divine Tribunal:

A special court for cases involving rebellion, treason, and crimes against the Twelve Divine Beings.

Known for swift and absolute rulings, its judgments were often carried out immediately.

Divine Prison:

A vast, multidimensional facility designed to contain even the most powerful beings.

Prisoners were held in stasis, their powers nullified by mythical suppression tools.

2. Political and Administrative Institutions:

Divine Parliament:

An assembly of representatives from every realm, responsible for drafting laws under the guidance of the Twelve Divine Beings.

While inclusive, the Parliament operated strictly under the divine mandate, ensuring no laws opposed the Twelve's authority.

Divine Presidency:

The executive branch, headed by chosen emissaries of the Twelve Divine Beings.

Responsible for implementing laws, overseeing governance, and managing interdimensional relations.

Absolute Influence Over Nations

1. Unification of All Countries:

Every nation across the multiverse was brought under the influence of the Twelve Divine Beings.

National leaders operated as vassals of the Twelve, implementing divine laws within their territories.

Any nation attempting to resist or rebel faced immediate intervention.

2. Response to Rebellion:

The Divine Police, Dark Heavenly Soldiers, and Shadow Soldiers of Sung Jin-Woo ensured swift suppression of any dissent.

Monks and Priests of the Twelve Divine Beings spread divine teachings to prevent rebellion and foster loyalty.

The Divine Armada, a fleet of celestial and shadow-based warships, patrolled the multiverse to eliminate large-scale threats.

The Divine Armada

The Divine Armada was a key instrument of enforcement, created to defend and expand the Twelve Divine Beings’ influence.

1. Composition:

Celestial ships powered by divine energy and manned by armies of Dark Heavenly Soldiers, Shadow Soldiers, and other loyal forces.

Each ship was equipped with mythical-grade weaponry capable of obliterating entire dimensions if necessary.

2. Purpose:

To patrol the multiverse, ensuring compliance with divine laws.

To act as a deterrent against large-scale rebellions or interdimensional threats.

Impact on the Multiverse

The establishment of these organizations and institutions marked a new era of order and control.

1. Universal Compliance:

The Twelve Divine Beings' laws became the universal standard, ensuring fairness and justice for all.

Even the most powerful beings submitted to their rule, knowing the consequences of defiance.

2. Unity and Stability:

By uniting all realms under one system, the Twelve Divine Beings ended centuries of chaos and conflict.

Trade, culture, and knowledge flourished under their protection, leading to an unprecedented golden age.

3. Omnipresent Enforcement:

The presence of divine organizations ensured that no rebellion or injustice went unchecked.

The fear of retribution maintained peace, while the promise of justice inspired loyalty among the weak and oppressed.

The Twelve Divine Beings now reigned supreme, their dominion extending to every corner of the multiverse. With their unparalleled power and meticulously crafted

governance system, they ensured that their rule would remain unchallenged for eternity.
